Product information and safety information

Item no. 10276

Item no. 10286

Products

Item no.	Product description	GTIN / EAN
10276	Metallic heart balloon - red | 41 cm decorative heart-shaped foil balloon	4250445810320
10286	Metallic star balloon - gold | 41 cm star-shaped foil balloon	4250445810054

Size approx. 41 cm according to the product description. For sets, the size refers to the balloons, not to the total length of the garland.

Intended use

Heart- and star-shaped foil balloons for indoor decoration, for example at parties or as gift decorations. Use only for these purposes.

NOTE - Use and contact

Safety information is on page 2; information on use, care and the manufacturer is on page 3.

Decorating safely

CAUTION - Small parts and choking hazard

Not suitable for children under 3 years. Contains small parts that can be swallowed. Keep uninflated, damaged or burst balloons and balloon pieces away from children; collect pieces immediately. Use only under adult supervision.

CAUTION - Ribbons and cords

Ribbons and cords can become wrapped around the neck. Do not put them around the neck or body. Secure decorations and loose ribbons out of reach of small children; do not attach to cots.

CAUTION - Power lines

Metal-coated foil balloons can conduct electricity. Keep away from power lines and electrical installations. Do not release outdoors. Never remove balloons from power lines yourself.

NOTICE - Heat and open flames

Keep away from open flames, candles, hot surfaces and strong heat sources. Avoid direct sunlight.

NOTICE - Inflate and secure with care

Inflate slowly and do not overfill. Do not use sharp or pointed objects to open or inflate. Do not damage the foil, seams or inflation opening. Do not use wires or metallic ribbons for hanging.

NOTE - Follow the packaging instructions

Follow the instructions on the respective original packaging. Read before use, keep this leaflet and pass it on with the product.

Use and contact

Intended use

Foil balloons for indoor decoration, for example on walls, windows or above a gift table. Heart and star as decorations for parties and as additions to gifts. Use only for these purposes.

Step by step

01 Unpack the balloon carefully. Check the foil, seams and inflation opening for damage. Do not use damaged balloons.

02 For air-filled decoration, use the inflation opening as instructed on the packaging. Carefully insert an included inflation straw or use a suitable hand-operated balloon pump. Inflate slowly; do not force the straw or pump nozzle in and do not overinflate until taut.

03 Close the inflation opening as instructed on the packaging. Secure the balloon firmly; use any hanging tabs provided. Keep ribbons out of reach of small children.

04 During use, check the decoration for damage and secure attachment. Take it down after use and collect all loose parts and pieces.

NOTE - Inflation

These instructions describe use with air. For any other filling, follow only the approval on the respective original packaging.

Care, storage and disposal

Store clean and dry, protected from sunlight and heat. Keep away from children. Undamaged balloons can be reused if handled carefully; deflate only as instructed on the packaging. Do not leave balloons or pieces in the environment. Dispose of according to local rules; sort packaging by material.
