Long nose pliers

14.2 cm | Long, straight tips

For gripping, inserting and aligning small components in narrow or recessed areas.

Item number	**10323**
GTIN	4260606871466

Warnings and safety information

Risk of puncture injuries. Point the long tips away from your body. Use the pliers only if the tips are straight and meet properly.

Risk of crushing. Hold the pliers only by the handles. Keep fingers out of the space between the jaws and away from the joint.

Avoid overloading. Use hand pressure only. Stop if the workpiece moves only with heavy pressure. Do not use the pliers as a lever or hammer.

Risk of electric shock. Work only on de-energised parts. The handle covers provide no protection for live work.

Operation

Check the joint, handles and jaws before use. Use the pliers only if they move freely, are undamaged and have clean, dry handles.

1. **Reach the gripping point.** Support the workpiece. Guide the long tips straight into the gap and keep the gripping point in sight.
2. **Pick up the part.** Grip the component between both jaws, as far back from the very tips as possible. Close the handles with light pressure.
3. **Insert the part.** Guide the component straight into place. Open the jaws and withdraw the pliers without applying sideways force to the long tips.

Care and storage

Wipe the pliers with a dry cloth after use. Store them in a dry place out of reach of children.
