Chain nose pliers

10.5 cm | Narrow, smooth jaws

For holding and aligning fine chain links, small rings and delicate jewellery parts.

Item number	**10325**
GTIN	4260606871480

Warnings and safety information

Risk of slipping. Do not pull on a clamped chain. The pliers may slip on smooth links. Use a tool designed for cutting or bending open.

Risk of crushing. Hold the pliers only by the handles. Keep fingers out of the space between the jaws and away from the joint.

Avoid overloading. Use hand pressure only. Stop if the workpiece moves only with heavy pressure. Do not use the pliers as a lever or hammer.

Risk of electric shock. Work only on de-energised parts. The handle covers provide no protection for live work.

Operation

Check the joint, handles and jaws before use. Use the pliers only if they move freely, are undamaged and have clean, dry handles.

1. **Lay down the chain.** Place the chain without tension on a non-slip surface. Move neighbouring links away from the gripping point.
2. **Grip a single link.** Place the smooth jaws on one link. Close the handles only enough to hold the link securely.
3. **Align the jewellery part.** Hold the link in the desired position while fitting the connector. Open the handles before moving the chain further.

Care and storage

Wipe the pliers with a dry cloth after use. Store them in a dry place out of reach of children.
