REGUR PT-16 pneumatic stapler

Product information and safety information

Item no. 10132

Item

Item no.	Description	GTIN
10132	REGUR® PT-16 pneumatic stapler for polymer staples	4001973018807

Item weight: 1,00 kg

Intended use

Pneumatic stapler for driving REGUR® PolyTacks HP polymer staples in woodworking and when marking and packaging wood. Use only with the staples intended for the device and for the applications intended by the manufacturer.

Care, storage and disposal

Keep the device clean and dry and store it in a dry place. Dispose of it at a recycling centre or through metal collection; separate packaging by material.

Legend - information and symbols

CAUTION	Possible risk of injury.
NOTICE	Possible damage to property.
NOTE / TIP	Helpful information on use.

Safety information

CAUTION - Risk of injury

Risk of puncture, crushing and injury from discharged staples! Never point the device at people or animals. Keep hands and fingers away from the staple outlet and work area, and fire the device only against the workpiece.

CAUTION - Compressed air supply

Use only the staples intended for the device and a suitable compressed air supply within the permissible operating pressure. Before use, check the air hose and connections for damage and secure attachment. Do not operate with flammable or unsuitable gases.

CAUTION - Loading and maintenance

Before changing the magazine, clearing jams, cleaning or maintenance, fully disconnect the compressed air supply and release any residual pressure.

NOTICE - Device condition and storage

Do not use damaged devices or devices that do not function properly; keep away from children and unauthorised persons!
